As a milestone for both globalization and global governance, the G20 Hangzhou Summit in 2016 has brought forth a new order to the world and has demonstrated how China can play an important role in global issues. Four main points stand out in this book on the G20 China Presidency: "charting a new path for growth," "more effective and efficient global economic and financial governance," "robust international trade and investment" and "inclusive and interconnected development." The book aims at establishing a long-term governance mechanism for G20 while recommending the agendas and accomplishments of the G20 China Presidency for recognition and acceptance by future G20 summits.
